ISHWARDWAR HEALTHCARE SOURCING

U.S. Buyer Capability Statement

IshwarDwar LLC, doing business as IshwarDwar Healthcare Sourcing, is an independent Texas-based sourcing consultancy helping U.S. healthcare buyers explore suitable products through manufacturers, suppliers, and distribution partners.

Founder Reshma Asrani brings extensive nursing experience and a practical understanding of patient comfort, product quality, cleanliness, and everyday care workflows.

PRODUCT CATEGORIES

Clinical Disposables & Barrier Products
Smooth and crepe exam table paper, disposable fitted table and face cradle covers; non-sterile examination gowns, shorts, drapes, and protective covers; powder-free nitrile examination gloves, surface barrier films, disinfecting wipes, and absorbent underpads.

Advanced Clinical Equipment & Practice Technology
Outpatient procedure tools and specialized clinical hardware; non-invasive vascular, cardiovascular, and podiatric assessment systems; treatment room equipment and specialty practice technology.

Reusable Institutional Textiles
Flat sheets, fitted sheets, pillowcases, and thermal blankets; bath and hand towels, washcloths, and bath mats; reusable patient gowns, adult bibs, and specialized care textiles.

FACILITIES & BUYERS

Hospitals, nursing homes, rehabilitation facilities, outpatient practices, surgical centers, therapy clinics, and commercial laundries; healthcare distributors and institutional wholesalers where there is a suitable fit.

HOW WE SUPPORT YOUR SOURCING

Clarify requirements: Product specifications, quantities, delivery location, and timing.
Explore options: Identify potential suppliers and coordinate quotations, product information, supporting documents, and sample requests.
Support evaluation: Help compare supplier responses against your requirements and coordinate questions about availability, lead times, and equipment support.

WORKING ARRANGEMENTS

Our role is sourcing coordination and buyer-supplier introductions. We do not manufacture, import, or hold inventory. Product suitability, claims, documentation, pricing, and availability require confirmation for each opportunity. The buyer and supplier agree commercial and delivery terms; any supplier-paid compensation is disclosed as applicable.

START WITH ONE PRODUCT REQUIREMENT

Send an item number, specification sheet, or product description, along with estimated quantities, delivery location, and target date. For an unlisted disposable, diagnostic device, or specialty item, we can explore potential supplier options.
